• ABOUT MYSELF

Full-Stack Engineer with 5 years of experience building scalable SaaS and AI-powered web applications using React, Next.js, Node.js, PostgreSQL, and TypeScript.

Proven track record of delivering production-grade systems, designing clean architectures, and developing high-performance APIs for real-world products. Experienced in monorepo (Nx), real-time integrations, authentication systems, and cloud-ready applications.

Passionate about building impactful products, optimizing performance, and working in fast-moving international teams.

• WORK EXPERIENCE

08/05/2023 - CURRENT - ISLAMABAD, PAKISTAN

FULL STACK DEVELOPER EMUMBA PRIVATE LIMITED

Product: InterWiz — AI-Powered Interview & Candidate Screening Platform

<https://interwiz.ai/>

May 2023 – Present

- Engineered the interview workflow engine enabling adaptive, role-based AI interviews.
- Built the AI-generated evaluation and report generation system with structured scoring and hiring recommendations.
- Developed the live coding assessment module for real-time technical evaluation.
- Implemented question bank and interview template management for customizable interviews.
- Built auto-proctoring and trust score features to ensure interview integrity.
- Developed self-service interview scheduling, reducing manual coordination.
- Delivered ATS integrations for seamless hiring workflow synchronization.
- Designed and optimized real-time interview session APIs.
- Contributed to Nx monorepo architecture for scalability and code reuse.
- Built modular frontend architecture using React, Shadcn/UI, Tailwind, React Hook Form, and TanStack Query.

Tech Stack: Nx, React, TypeScript, Node.js, Express.js, PostgreSQL, Sequelize, Python
