• ABOUT ME

Senior Full Stack & GenAI Engineer with 5+ years of experience designing and delivering scalable SaaS and AI-powered applications for enterprise clients. Specialized in building modern full-stack and production-grade solutions using React, TypeScript, Python, Node.js, FastAPI, Retrieval-Augmented Generation (RAG) and LLM integrations with hands-on experience deploying cloud-native applications on Microsoft Azure. Proven ability to own products end-to-end from architecture and frontend development to backend services and production deployments. Passionate about building intuitive user experiences, solving complex business problems, and delivering high-quality software in fast-paced international teams.

• WORK EXPERIENCE

08/05/2023 - CURRENT - ISLAMABAD, PAKISTAN

SENIOR SOFTWARE ENGINEER EMUMBA PRIVATE LIMITED

FEMSA AI Assistant — Enterprise GenAI Platform

Designed and developed a production-grade Retrieval-Augmented Generation (RAG) based AI assistant for **FEMSA Coca-Cola**, enabling business teams across multiple countries to quickly access and understand complex business knowledge related to BI and inventory management applications.

- Served as the sole software engineer responsible for the end-to-end development of the application, owning both frontend and backend implementation.
- Built a modern full-stack application using React, TypeScript, Vite, Shadcn/UI, Tailwind CSS, Python, FastAPI, Azure OpenAI, Azure AI Search, Azure DI, Azure Blob Storage and MSSQL.
- Designed and implemented a Retrieval-Augmented Generation (RAG) pipeline with LLM integrations to deliver accurate, context-aware responses from enterprise knowledge bases.
- Developed a multilingual AI assistant supporting English, Spanish, and Portuguese for geographically distributed business teams.
- Designed scalable backend APIs and responsive frontend interfaces focused on performance, usability, and maintainability.
- Containerized the application using Docker and deployed production releases to Azure Container Apps.

Tech Stack: React, TypeScript, Vite, Shadcn/UI, Tailwind CSS, Python, FastAPI, Docker, Azure Container Apps, Azure OpenAI, Azure AI Search, Azure DI, Azure Blob Storage, Retrieval-Augmented Generation (RAG), LLM Integration.

InterWiz AI — AI Interview (Video and Phone Call) & Candidate Screening Platform

- Engineered core interview workflows enabling adaptive, role-based AI interviews.
- Developed AI-powered candidate evaluation and report generation features with structured scoring and hiring recommendations.
- Built live coding assessment capabilities for real-time technical interviews.
- Implemented interview templates, question bank management, scheduling workflows, payment integration, complex onboarding flows and ATS integrations.
- Contributed to scalable Nx monorepo architecture and developed modular frontend components using React, TypeScript, Shadcn/UI, and TanStack Query.

Tech Stack: React, TypeScript, Node.js, Express.js, PostgreSQL, Sequelize, Nx, Python

01/07/2021 - 05/05/2023 - PESHAWAR, PAKISTAN

FULL STACK DEVELOPERPRODUCTBOX

Product: Expedient VMS — Unified platform for complete workforce management across all labour types

<https://www.expedientvms.com/>

Jul 2021 – Apr 2023

- Architected scalable backend services for a multi-tenant enterprise platform.
- Designed secure RBAC authentication and authorization using Auth0.
- Built workflow-driven APIs for vendor onboarding, resource management, and approvals.
- Integrated real-time communication using Twilio Conversations API.
- Developed responsive frontend using React, Reactstrap, Redux, and Redux-Saga.
- Added unit and integration testing to improve system reliability.
- Contributed across the full product lifecycle including requirements, design reviews, development, and code reviews.

Tech Stack: Node.js, Express.js, MySQL, Sequelize, React, Redux, Auth0, Twilio
